

## **INFO1111: Computing 1A Professionalism - Course Information**

Unit: INFO1111: Computing 1A Professionalism (6 CP)

Mode: Normal-Day

On Offer: Yes

Level: Junior

Faculty/School: School of Computer Science

Unit Coordinator/s: [Dr Takatsuka, Masahiro](#)

Session options: Semester 1

Campus: Camperdown/Darlington

Pre-Requisites: None.

Prohibitions: [ENGG1805](#) OR [ENGG1111](#) OR [ENGD1000](#).

Brief Handbook Description: This unit introduces students to the fundamental principles that underlie professional practice in computing. It lays the foundation for later studies, and presents to the students challenges common to a multidisciplinary IT environment. The subject also provides students with the opportunity to develop important attributes such as communication skills, an understanding of professional ethics, and of working as a part of a team. Tool use is an important aspect of this unit: students are required to learn to use tools for planning and completing work, managing artefacts including reports, and communicating within the team. A selection of guest speakers will address students on different career paths.

Assumed Knowledge: None.
